

Product Specifications

Ingredients:

Isobutane, Propylene Glycol t-butyl Ether, Deionized Water.

Appearance:

White Foam

Odor:

Citrus

pH:

10.25 ± 0.5

Storage:

Below 120°F (49°C)

Boiling Point:

<0 to 307°F

Vapor Density:

Heavier than air

Evaporation Rate:

Slower than Ether

**Specific Gravity:
(Water=1)**

0.95 ± 0.05

Solubility in Water:

Soluble

**Emergency
Phone Number
(800) 535-5053**

Club Clean

Foaming Golf Equipment Cleaner

ZENEX NUMBER 490105

DESCRIPTION

A technologically advanced formula that safely and effectively cleans drivers, irons, shoes and balls.

FEATURES AND BENEFITS

Use this cleaner for solid, booming drives, accurate iron shots, and to create more ball spin on wedges and short irons. Fewer wasted strokes.

APPLICATIONS AND USES

Use on drivers, irons, shoes, and balls that have strayed into mud, streams, and ponds.

DIRECTIONS FOR USE

Shake well before using. Spray and let foam absorb. Wipe clean with cloth or use brush on cap.

SIZE / AVAILABILITY
