## ZenaShine NF

### Detail Spray

ZENEX NUMBER 494765

#### DESCRIPTION

A special no-fuss brightener for vinyl, rubber, and plastic. Specially designed for hard-to-reach areas such as air conditioning vents.

#### FEATURES AND BENEFITS

A non-foaming detail spray specifically designed for the professional detailer. Long-lasting, controlled spray allows for a "new looking" shine on old worn rubber, synthetic leather and vinyl surfaces. No wiping necessary. High active formula allows for one coat coverage.

#### APPLICATIONS AND USES

Promotes and increases the life of rubber surfaces. Ideal for tires, dash boards, exterior trim, window trim, door seals, vents, wheel covers, bumpers, and bumper trim.

#### DIRECTIONS FOR USE

Shake well before using. Prepare surface. Remove dirt, dust, oil, and grease. Dry surface. Test spray on inconspicuous area or scrap piece to check compatibility. Hold can 10" to 12" from surface. Use a stroking motion. Apply two or more coats rather than one heavy coat. For best results, spray at 70°F to 80°F. Polish surface, if desired, using a soft cloth after allowing spray to dry a few minutes.

#### SIZE / AVAILABILITY

16-oz. Aerosol  
Net Weight 10.25 oz.  
12 per case
